

Workshops4all

.....Bringing Private Practice to Life

Testimonials:

"Just by chance, I received my first private commission days after attending the Workshop4all session. The information I gained on the day was invaluable in pitching my costs, setting my terms, and dealing with clinical issues like confidentiality"

"Extremely helpful and though provoking. It was good to be in a mixed group of people who have already begun to work privately and "virgins" like myself".

"Thank you – I wish I had attended this workshop when I qualified! You have encouraged me to start marketing myself with a view to develop a private practice. Lots of helpful tips and places to start. I'm sure I'll be back for more workshops."

"Thank you! This is an excellent workshop for any clinical psychologist thinking of starting out in private practice. Richard and Graham do a great double act in a friendly and accessible way. I would highly recommend this course. Excellent value .I think you could have charged more for this event."

"This was a brilliant opportunity for an insight into private practice and also to meet like minded people. I found it both very useful and very enjoyable, thank you very much."
